

AM-POL-002

Environmental Policy

Amaro will endeavour to ensure that the protection of the environment will be included as part of its business plan. The Company shall comply with all relevant legislation and guidance as required and positively encourage its suppliers/partners to do the same.

Amaro is committed to adopting an environmentally aware approach to the management of the company; implementing positive precautions to prevent health and safety hazards such as pollution and disposal of all types of waste and plant under its control, whilst recognising that sound management of energy and resources will help cut costs and enhance the company's competitive advantage.

Amaro is committed to improving resource efficiency from energy, fuel, and material consumption by promoting the minimisation of waste and the maximisation of best practise throughout the company, including setting, and monitoring environmental objectives to improve performance.

In pursuit of the above the Company shall:

- Meet and where appropriate, exceed the requirements of all existing legislation. Where no regulation exists, we shall set our own standards, informed by relevant codes of practice and guidelines.
- Re-use equipment where possible, increase recycling and promote the use of recycled materials.
- Minimise the environmental impact, including the disposal of materials and plant under its control.
- Commit to energy and water efficiency in all our operations and incorporate energy and water efficiency measures within our premises and projects.
- Strive to reduce greenhouse gas (GHG) emissions including Sox (Sulphur dioxide), Nox (Nitrogen oxide), VOC (Volatile Organic Compound), PM (Particulate Matter), dust, and any other atmospheric emissions such as noise, light, and odour across the business through strategic planning and/or by employing direct reduction and elimination measures at each project site.
- Influence, and work with, our major clients and suppliers to minimise the negative impact of their operations on the environment. Specifically protecting the environment where work activities may have an impact.
- Influence future generations by including the principles of good environmental performance in the projects we undertake and ensuring employees have the opportunity to shape/influence the company's environmental practices.

- Commit to minimise any impacts from our operations on protected areas and/or endangered species by ensuring compliance with company management systems, Network Rail Standards, regulatory, and/or any applicable legislative requirements pursuant to the worksites of the company.
- Publish our commitment to the environment and continual improvement by aiming to implement ISO 14001.
- Provide a framework for the setting and reviewing of objectives.
- Ensure effective implementation, operation, monitoring, and maintenance of the environmental management system through continual improvement, review, and assessment.

Amaro recognises that the company and/or individuals can be liable to prosecution if activities undertaken by them are found to have a negative impact on the environment.

Review

This policy will be reviewed annually or when statutory or operational requirements necessitate a formal review.

End of Policy

Mr Michael Ewart
Managing Director
